Summary

AI and Data Science undergraduate with hands-on experience in Machine Learning, Computer Vision, Data Analytics, and Full-Stack Development. Developed AI-driven applications and completed multiple internships in web development and software engineering.

Education

P.S.R Engineering College

Aug 2023 – May 2027

Bachelor of Technology in Artificial Intelligence and Data Science (CGPA: 7.9/10)

Sivakasi, Tamil Nadu

Relevant Coursework

- Artificial Intelligence
- Machine Learning
- Data Analytics
- Database Management Systems
- Computer Vision
- Software Engineering
- Web Technologies
- Data Structures and Algorithms

Experience

Life Changers IND

Aug 2024

Project Trainee

Tirunelveli, Tamil Nadu

- Built a Python-based chatbot for frequency healing focused on skin wellness and facial glow.
- Provided personalized frequency suggestions (e.g., 528 Hz) with real-time user interaction.
- Improved chatbot response accuracy and user engagement through optimized response handling.

Tessolve Semiconductor Pvt Ltd

Oct 2024

Project Trainee

Coimbatore, Tamil Nadu

- Developed a Face Recognition System to automate student attendance tracking.
- Maintained attendance records in a database for seamless reporting.
- Provided an intuitive platform for attendance management.

Projects

AI Interview Analyzer | Python, Flask, HTML, CSS, and JavaScript

- Created an AI-powered interview assessment system.
- Analyzed confidence level, speech clarity, and eye contact using AI techniques.
- Generated confidence insights through speech and behavioral analysis.

Frequency Healing for Skin Wellness | Python and chatbot technologies

- Engineered a chatbot for personalized frequency recommendations.
- Focused on wellness and skin-care guidance through interactive conversations.
- Implemented using Python and chatbot technologies.

Smart Attendance System | Face Recognition

- Designed an attendance management system using face recognition.
- Stored and managed attendance records through database integration.
- Reduced manual attendance effort by automating attendance tracking and record management.

Moving Object Prediction | Python, OpenCV

- Developed a system to detect and track moving objects in video streams.
- Applied Computer Vision techniques to predict object movement in video streams.

Hotel Management System | Python, MySQL

- Developed a hotel management system for room booking and customer record management.
- Integrated MySQL database operations for efficient data storage and retrieval.

Technical Skills

Programming Languages: Python, Java, C, C++, SQL

AI / Data Science: Artificial Intelligence, Machine Learning, Data Analytics, Computer Vision

Web Technologies: HTML, CSS, JavaScript, React

Tools: Spring Boot, VS Code, Eclipse, GitHub

Data Visualization: Power BI, Excel

Certifications

- Data Analytics MasterClass – NoviTech R&D Private Limited (2026)
- Full Stack Web Development with Java Internship – Phoenix Softech (Nov 2025 – Dec 2025)
- Web Development Internship – ILIFE Technologies, Trichy (May 2026 – Jun 2026)
- Web Development Internship – PORTALAM Learning Partner (Mar 2024 – Apr 2024)
- Programming in C, C++ and Python – CSC Academy
- Effective Public Speaking (EPS) Training – JCI Madurai Meenakshi

Achievements

- First Prize Winner – INTELLECT'24, Government Engineering College, Coimbatore.
- Completed JCI Effective Public Speaking (EPS) Training and received recognition certificate.
- Received Certificate of Achievement from PORTALAM for volunteer contribution and service.
- Conducted Ethical Hacking Workshop at P.S.R Engineering College.
